### **DARK NIGHTS AND BICYCLE LIGHTS**

Now that the dark evenings are with us for a few months, it is time to remind cyclists, particularly the younger ones, that lights on their bikes could quite simply save their lives. Even the most careful driver runs the risk of harming a cyclist who is riding without lights.

The Parish Council asks all parents to please make sure that their child's bike has good lights both front and rear which are clean and in working order. Cyclists and pedestrians can keep themselves safer on the roads at night by wearing light coloured or reflective clothing.
